RESUMO

GFOSS.it, is the Italian community of users and developers of Geographic Free/Open Source Software (GFOSS). GFOSS.it brings together a broad group of people, from all parts of Italy, who are active in the development and in the use of free GIS in various sectors: from business, to research and academia, to public administrations. The Italian GFOSS community is one of the most important and active worldwide, both in terms of users and developers.
